FUJITSU FUTRO S720

Thin Client

The Affordable Thin Client

The individually configurable thin client FUJITSU FUTRO S720 is ideal for secure server-based computing and desktop virtualization. Silent and easy to use, it also offers straightforward integration and manageability. User convenience is supported through a small footprint, dual monitoring and unique connectivity options. Exceptional quality guarantees a long lifecycle. Combined with low energy consumption, this will help minimize your TCO.

Green technology

Your company's contribution to environmental protection

- A modern, environmentally conscious product concept - from development to recycling

Relaxed working

Quiet system for a pleasant working environment

- Flash memory and passive cooling concept

Energy efficiency

Saves energy and reduces CO2 emissions

- Integrated system concept with high-level power-saving components

Manageability

Easy administration while reducing total cost of ownership

- Outstanding manageability solution

Backpack solution

Less space needed

- The FUJITSU FUTRO S720 can be mounted behind a display
